In recent UK independent analysis, **hth** was shown to provide consistent available chlorine in excess of 70%, proving to be the best value swimming pool chlorine kilo for kilo.

Complete Leisure Supplies are proud to be official Irish distributor for **hth**. Our customer service representatives are available to call to your pool to discuss the full range of **hth** products, offer advice on reducing your chemical consumption and improving chemical safety. Call us today on 01 6279070.

Water Testing Tablets

REMEMBER : When testing pool or spa water you must use the correct test tablets to ensure accurate results, ie. Palintest tablets in Palintest testers, lovibond tablets in lovibond testers. Using the incorrect tablets can lead to inaccurate readings.

Police In Finland Investigate Sauna Competition Death

The 'World Sauna Championships' held in the Finnish city of Heinola came to a tragic end on Saturday 7th August when one of the finalists, a Russian man, died in the end stages of the competition.

In the final, the contestants sat in a sauna that was heated to 110 degrees Celsius. Participants in the competition were required to submit to a medical examination, and during the competition they were asked at regular intervals if they were all right to continue. The exact cause of death remains unknown, the organisers have said that no more such competitions would be held.

News of the death in the finals of the sauna competition has made headlines worldwide.
