

SHOCKING NEWS!

BENEFITS OF HTH SHOCK

- Clears algae – getting straight to the problem area.
- Cleans surface draw-off channels and skimmers.
- Cleans the filter.
- Burns off inorganic chloramines.
- Has minimum effect on water balance, TDS and pH.
- Does not add to cyanuric acid levels.
- *Fast dissolving* granules with long shelf life.
- Easy to handle and use – no need to predissolve
- Supplied in 5kg drums.
- Available now!

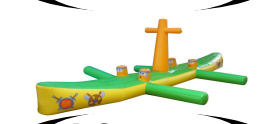

Our calcium hypochlorite HTH Shock granules with 78% available chlorine, starts to work in seconds to shock your pool and spa water and destroy organic contaminants.

Example: a pool 25m x 12m x 1.5m av depth = 450m³
HTH fast dissolving shock is all that you need to take this volume of water from zero to 8.5ppm with just one single 5kg application.

Underestimated.....Pool Water Testing.

The importance of correct swimming pool water testing is often overlooked. By carrying out good water testing, analysing the results and taking appropriate corrective action you can often avoid water quality issues, possible closures and you can save money on chemicals too! As part of our 'Responsible Care' program, Complete Leisure Supplies offer pool water testing training.

Pool water testing training is done at your pool, and is completely Free Of Charge for Complete Leisure Supplies customers. To arrange your training call us on 01-6279070

Plan Ahead for Ice & Snow

Last winter was one of the coldest we have had in a long time. Many people were caught off guard as stocks of road grit and de icing salt ran at an all time low.

Don't get caught out this winter.

Order your footpath & car park de-icing salt now on 01 6279070
